

A few years ago I came into contact with the idea of basic income and I have been invested in it ever since. The simplicity of the idea itself contrasted with its huge positive implications makes it a unique opportunity by providing a base for everybody.

For the past year I have been part of the Outreach Committee and it has given me a lot of experience and energy. The Committee has provided the perfect way to become more acquainted with the active basic income movement and join it. I have come into contact with a lot of new people from all over the world and have enjoyed every minute of it. The experience has led me to a point at which I would like to invest more of my time in the movement and the position of Outreach Committee coordinator provides the perfect opportunity to do just that.

The coordinator for the Outreach Committee would be the perfect next step for me as I perform a lot of coordinating duties at work and have done so throughout my career. This provides me with the experience to perform this position. Additionally, the opportunity to be able to work together with people that share the same passion and come from all corners of the world is one that I cannot pass up. What can also help me is the fact that I have sought as much international experience as I possibly could during my career which I can apply in this position.

I would very much like to continue what Jenna has built over the past year and expand onto it. By increasing the amount of resources on the Slack channel and further structuring the channels and monthly call I would like to make it even easier to support new and existing affiliates in their search for support and sharing their experiences with each other.
