

Lena Stark

I like to stand for election as assistant treasurer.

The first time I read about basic income was 6 years ago and I got hooked straight away. I saw it as the reform that could change the world to a much better place. I'm a visionary but also very practical.

I have been a life-member of BIEN since 2016, from 2015-18 I was a member of UBIE's core group. In 2016 I started the basic income party in Sweden and we are participating in the national election in September this year.

I have experience in accounting from running my own ecological catering company for 15 years and from working with fundraising in UBIE.
