

BIEN Volunteer Recruitment Report 2022

Submitted by Leah Hamilton

Since July 2021, I have screened more than 30 inquiries from interested volunteers and referred them to the appropriate working group. These volunteers have successfully helped us to write Basic Income News articles, manage social media, translate BI News articles to Chinese and Polish, support the website, and launch multiple new projects.

This year, my term as Volunteer Coordinator will expire. I am currently leading the evaluations of two large basic income pilots in the US. The time commitment required by these projects means that I am not able to run for another term as Volunteer Coordinator. I am grateful for the support and friendship of the entire BIEN Executive Committee for the past three years and am heartened by the growth of its current projects. I am happy to train and support whomever next steps into this role, if so desired.
