

Mike Valentine

Since September of 2021 I have been performing routine Website Manager maintenance duties such as WordPress core updates and plug-in upgrades. I produce monthly website traffic reports and regularly make EC committee requested content changes. I have also worked with BIEN Secretary Diana Bashur to send a small number of emails to BIEN members via MailChimp.

BIEN is adding several language translations of a limited number of relevant pages. Worked with volunteers to add two additional languages. In addition, I am working on a review of image content and coordinating with volunteers to work on over 3000 images to verify usage rights.
